[Requirements]().			
Actian Zen v15.1 Database We've updated the Sage 50 database to Actian Zen v15.1 to keep your business supported and running smoothly. You'll see enhanced performance and more stability with this reliable and low-maintenance database management system. Earlier versions of the Actian Zen database engine are now out-of-date and unsupported, which can introduce new risks and interrupt your daily business activities.	Yes	Yes	Yes
We're here to help you			
Sage 50 help and support With modernization and familiarity in mind, Sage 50 Help now runs with your preferred browser in a search-engine friendly format. You can also benefit by bookmarking articles you would like to reference later or by sharing information with others through social sharing options. Need quick access to support? You can also add a shortcut to support resources on your desktop when installing. No more wondering if you are in the right place. It's the real Sage.	Yes	Yes	Yes
Sage Brand – Refreshed look and feel			
New logo, program icon, and colours You'll notice a refreshed Sage 50 program icon and a newly unveiled brilliant green Sage logo in the program itself. The colour palette includes an emphasis on brilliant green, black and white, in keeping with the Sage identity that focuses on simplicity and insight.	Yes	Yes	Yes

	Pro	Premium	Quantum
Field help has a new look Get clarity on tasks in your Sage 50 solution with collapsible field help. In various windows, slide open the new "Field help" to see how each field is defined and view examples in a simplified format.	Yes	Yes	Yes
